THE GENESIS

"The world is a book and those who do not travel read only one page."

— St. Augustine

NECESSITY GIVES RISE TO THOUGHT AND THOUGHT GERMINATES BIRTH

The genesis of Beacon Junior College follows this beaten track of necessity 'Creating a void for thought and thought leading the way to a creation. 'But the cliché ends there. The rest is a story of the dedication of a bunch of teachers that has led to a path breaking initiative in bringing the best quality of HS level education to the very doorsteps of the students of the region.

These teachers have spent the entire years of their professional lives lived so far in mentoring and guiding HSLC students in some of the most renowned schools of the region. It was only natural for them to feel alarmed at the increasing number of promising students fading out into oblivion after coming out with flying colours at the HSLC examinations. The story of talents snubbed out right after HSLC was becoming far too common to be qualified as exceptions. Someone had to explain what was going on and why.

After years of investing thought into the problem, the teachers decided to take the plunge into uncertainty and thus was born Beacon Junior College of Science, Arts and Commerce with the pin-pointed agenda to bring about a paradigm 'shift in HS level education.

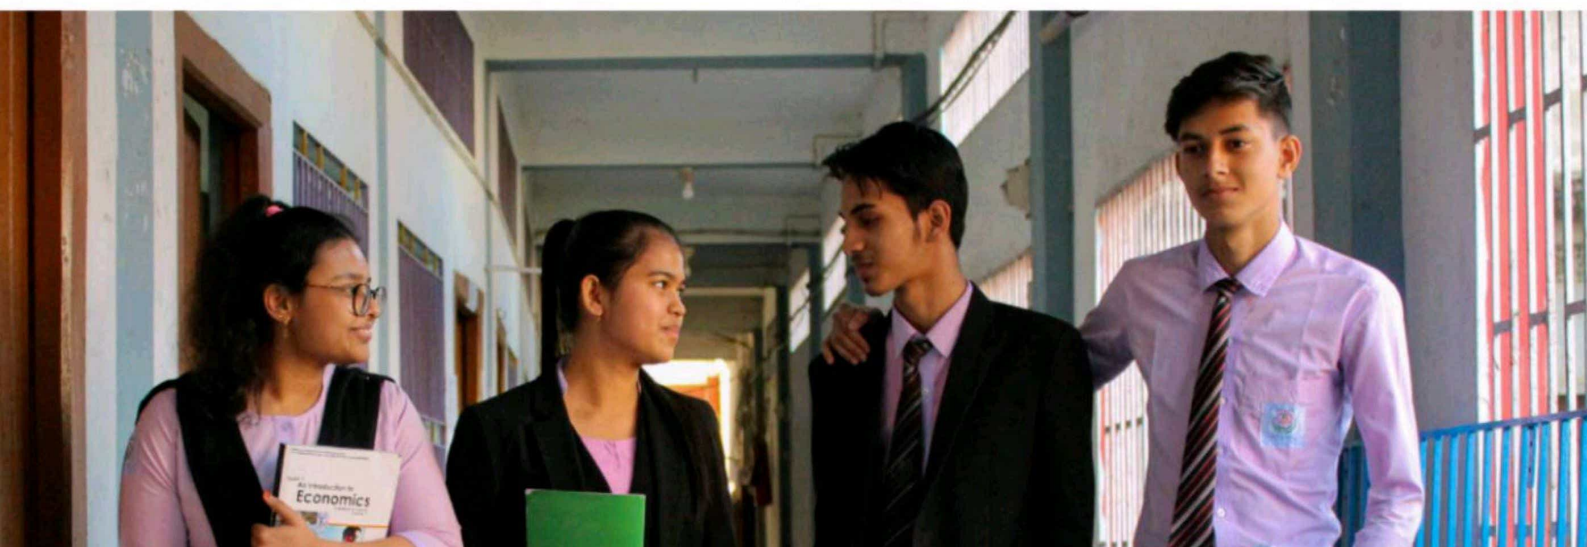

The idea was to bring the best and the biggest names of Higher Secondary education under 'one umbrella so that students could enjoy the best of education and soar the pinnacle of success in a familiar milieu recreated to suit their emotional, psychological and academic needs.
